General Allotment

After reviewing the current production requirements for the province of British Columbia, and reviewing a recommendation from the MIAC, the Board will implement a general allotment effective August 1, 2018. Key determinants for this allotment are set out below:

- The amount of CDQ to be allotted is 2.0%
- Consistent with the Consolidated Order, the allotment will be applied on a pro rata basis
- Each eligible CQM certified licensed producer's CDQ as at August 1, 2018 will serve as the basis for determining the pro rata CDQ amount
- The allotment will be subject to the 10/10/0 assessment policy

The Board is monitoring the production environment and will continue to provide direction to producers to meet market requirements.
